

Monir Shahroudy Farmanfarmaian was a sculpture and installation artist who was born in 1922 in Qazvin, Iran. Focusing

# INSTRUCTIONS

1) Take your dowel and your pipe cleaner. Wrap one end of the pipe cleaner around the end of the dowel to anchor it to the dowel.

length of the pipe cleaner, fold it into a shape and use the unattached end to connect back to the dowel. I chose a triangle because Farmanfarmaian's artwork is a triangle, but you can do any shape you want.

3) Optionally, you can use your colored pencils, markers, or pens to draw or color in the handle of your bubble wand!

4) To create the bubble solution, combine two cups of warm water, 1/4 up of sugar, and 1/4 up of dish soap in a cup or bowl.

6) Mix the solution up until the sugar is dissolved. Now you can dip your wand in and start blowing bubbles!
